The Federationist INDEX 1974

HOW TO USE INDEX

In the master index on the next two pages, articles are listed alphabetically by title and are numbered consecutively. The cross-index by author or subject on this page refers to the number of the article in the master index.

Example: Veterans, 41

No. 41 in the master index will give the title, page and month for the article on the subject of veterans. Thus No. 41 on the master index shows "The Plight of the Vietnam Veteran," page 18, November.
